

MODS 2FA registration

Registration procedure for Secsign 2FA. This procedure is applicable when logging in for the first time outside of the MARIN network. The procedure can be repeated indefinitely. If you cancel the procedure you can simply restart it.

Step 1:

Log in as per regular procedure.

The image shows a login page for MARIN. At the top center is the MARIN logo, which consists of the word "MARIN" in white capital letters on a blue rectangular background. Below the logo is a white rectangular box containing the login form. Inside this box, the text "Hello there!" is centered, followed by "Lets get some work done". Below this is a "Username" label, a text input field containing "gebruikersnaam", and a small icon of three dots. Below the username field is a "Password" label, a password input field with eight dots, and a small icon of an eye. Below the password field is a checkbox with a blue checkmark and the text "Remember my username". Below the checkbox is a blue button with the text "Log in". Below the button is a small icon of a padlock and the text "login protected by SECSIGN". Below the login form is a blue link "Login with SecSign ID" and a blue link "Forgot Login?".

MARIN

Hello there!

Lets get some work done

Username

gebruikersnaam

Password

.....

☒ Remember my username

Log in

 login protected by **SECSIGN**

[Login with SecSign ID](#)

[Forgot Login?](#)

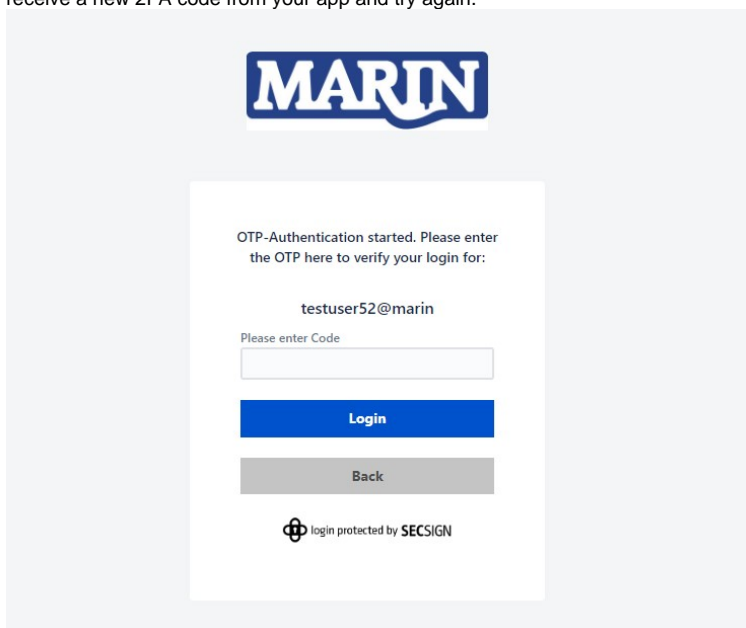

Step 2:

You will receive a QR code which can be scanned with an app of preference (I.e. Authy, Google Authenticator, Microsoft Authenticator). When the QR is scanned and you are receiving a 2FA code press "next".

Step 3:

Enter the 2FA code you are receiving trough the 2FA app and press "next". Should you receive the message the code is not valid, wait until you receive a new 2FA code from your app and try again.

Ready to use!
