Upgrade Information Confluence

The MARIN Online Software Documentation is built using Atlassian Confluence. The current version of Confluence used for MODS is 7.13.2

It is MARIN's intention to upgrade Confluence at least once every year. A major or minor upgrade is necessary to improve the functionality of MODS and to ensure its lifecycle.

Confluence 7.13.7

Highlights of Confuence 7.13.7

https://confluence.atlassian.com/doc/issues-resolved-in-7-13-7-1137639679.html

The upgrade to Confluence version 7.13.7. is scheduled from 08:00 - 18:00 on 29 June 2022. During this maintenance window MODS will be offline.

IMPORTANT: the macro Equation to show formula's in LaTeX format is no longer supported. Instead use the LaTeX Math macro to show formula's.

See Equation Macro Deprecated for more details on replacing the macro Equation.
