

@PLOTXY

The **entity** attribute @PLOTXY is used to define for this particular entity optional X and Y plotting parameters.

Syntax

Place @PLOTXY in the data slot of the entity

Arguments

- Par_X,Par_Y are the X and Y parameters in the entity.

Remarks

This attribute is used to identify for this particular entity an X and Y parameter that is plotted in the Graph tool if relevant **DETERMINED** values are available in the entity. The plot is refreshed automatically.
