

@SORTED

The **parameter** attribute @SORTED is used in an |OPTIONS| script to sort the selection set from low to high in the database selection dialog.

Syntax

Place @SORTED in the data slot of the parameter

Remarks

In the data slot of a parameter you can create a script using an |OPTIONS| syntax that will enable you to invoke the database selection dialog. With this attribute you are able to show the items in the dialog sorted from low to high.
