

Knowledge engineer tutorials

Knowledge Engineer Tutorials

The tutorials for knowledge engineers provide a solid training for the use of [Questaor](#). You should learn all about parameters, relations, objects, solutions and the intrinsic functions in the program.

Please note that we always assume you use the latest [Questaor](#) release. Any changes to the tutorials required due to a new release will be done the moment this version is released.

If you have any problem or question during the Tutorials that are not answered, or you discover that some of the Tutorials do not work the way you expect, please do not hesitate to contact us. We are always interested in feedback and improvement to our products.

Available tutorials:

- [Tutorials on Questaor basics](#)
- [Tutorials on the Taxonomy approach](#)

Also read the [Getting started documentation](#) for background information. For more example knowledge bases you can also visit the www.questaor.org website: click here for the examples(In most browsers the link will open in a separate window)
