

@NROBSERVED

The **parameter** attribute @NROBSERVED is used in an [OPTIONS] script to show the number of cases behind the presented options in the database selection dialog.

Syntax

Place @NROBSERVED in the data slot of the parameter

Remarks

In the data slot of a parameter you can create a script using an [OPTIONS] syntax that will enable you to invoke the database selection dialog. With this attribute you are able to show the remaining number of cases for the presented option.
