

@SHOWTELITAB

The **string or object parameter** attribute @SHOWTELITAB is used in an [OPTIONS] script to show the result in the [TeLiTab](#) editor.

Syntax

Place @SHOWTELITAB in the data slot of the parameter

Remarks

In the data slot of a parameter you can create a script using an [OPTIONS] syntax that will enable you to invoke the database selection dialog. With this attribute you are able to present the final selection in the [TeLiTab](#) editor.
