

@TOPLEVEL

The **relation** attribute @TOPLEVEL is used to define that this relation is also valid in the top level of the solution if it is assigned to a particular (non-Quantity) object as constraint.

Syntax

Place @TOPLEVEL in the data slot of the relation

Remarks

The attribute makes a relation only accessible for the Modeller in the top level of a Solution. In any object deeper in the solution hierarchy, this relation will not be proposed for inclusion in the model. See also [CUROBJECTS\(\)](#).
