

NRLINES

NRLINES returns the number of lines in a document

Syntax

NRLINES(Document\$)

Arguments

- Document\$ is a text document

Remarks

1. `CrLf(Chr$(13)+Chr$(10))` is considered as carriage return character in Document\$

Examples

```
NRLINES("Qknowledge")
```

returns 1

```
a=NRLINES("Qknowledge  
Haagsteeg 2  
Wageningen")
```

returns 3
