

Newqkb

Newqkb is an abbreviation of "New Quaestor Knowledge base".

This node is always available in the [Knowledge Browser](#) when you are Knowledge Engineer. It is the standard empty knowledge base you can start adding knowledge to if you have the proper [user rights](#). Moreover, it will always contain the class node "Quaestor parameters" for all [standard Quaestor parameters](#). Furthermore, it will always contain the [QKnowledgebaseVersion](#) parameter.

See also the [flash demo...](#) for the other standard tree items. For information on other standard items go to the [Quaestor node](#) topic.

[Quaestor interface](#)
