Adding the MARIN_LICENSE_PATHS environment variable in Windows

This page describes how to set the MARIN_LICENSE_PATHS environment variable in Windows.

1. To access the environment variables click the start button and start typing "environment". Choose "Edit the system environment variables".

2. The User Account Control will pop up if you use an account that does not have administrator rights. Ask the System Administrator to help you set the environment variable.

	😌 User Account Control	\times
	Do you want to allow this app to make changes to you PC?	ır
	Program name: Advanced System Settings Verified publisher: Microsoft Windows File origin: Hard drive on this computer	
	To continue, type an administrator password, and then click Yes.	
	Marin Marin-PC\marin Password	
	Show details Yes No	
3.	The System Properties window will appear. Click the "Environment Variables"-button.	
	Computer Name Hardware Advanced System Protection Remote You must be logged on as an Administrator to make most of these changes. Performance Visual effects processor scheduling, memory usage, and vitual memory	
	Settings
