# Online repair using an activation ID

If the Trusted Storage becomes unavailable or gets corrupted, you need to do a repair. If you need to repair an activated feature on this system, fill in the Activation ID and select the Fulfillment ID of the product and click 'Repair'.

Activated Features on this system.

Return	Repair

Fulfillment ID	Feature	Version	Expiry Date
FID_136c643e_143e45f673e__7fa3	productactivation…	11.10	permanent

A feature repair request is sent to the MARIN license portal. If the repair is successful, the feature is repaired in the Trusted Storage on the local PC.
