

@REPLACESPACESINPROJECT

The [QKnowledgebaseVersion](#) parameter attribute @REPLACESPACESINPROJECT is used in [QKnowledgebaseVersion](#) to force [Quaestor](#) to replace spaces in project names by "_".

Syntax

Place @REPLACESPACESINPROJECT in the data slot of the [QKnowledgebaseVersion](#) parameter

Remarks

This attribute can be included in the parameter [QKnowledgebaseVersion](#) to force [Quaestor](#) not to accept project names containing spaces. If a project name with one or more spaces is provided, a warning is issued and you have to provide a new project name.
